

# The Great Dance

Artist: Timo Hack

Key: B

**B**                    **E**                    **G#m**   **F#**   **E**  
Since forever, until forever, You are, You are  
**B**                                    **E**                    **G#m**   **F#**   **E**  
Before the beginning 'till after it's over, You are, You are

**C#m**                    **B/D#**                    **E**                    **B/D#**  
In Jesus You brought in all together, united now forever,  
**C#m**                    **B**                                    **F#**  
Glory be to God and peace on earth!

**C#m**                    **B/D#**                    **E**                    **B/D#**  
You took us all and made us one, reconciliation now has come  
**C#m**                                    **B**                                    **F#**  
It's always been Your purpose God, but now we see:

**G#m**                                    **F#**                                    **E**  
This is the great dance God is dancing over me

**G#m**                                    **F#**                                    **E**  
Intrinsically one, the Father, Spirit, Son and me!

**G#m**                                    **F#**                                    **E**  
Hidden for ages, now revealed - a mystery

**G#m**                                    **F#**                                    **E**  
This is the great dance God is dancing over me
